## HT Series : Hydronic Toe Space / Under Cabinet Heaters

Occasionally certain areas of a home prove difficult to find locations for heaters. Kitchens and bathrooms have long given the heating industry cause for creative products. Those days are long gone with the advent of the toe space/under cabinet heater! Inconspicuous placement of a compact, space-saving design placed in the floor or wall, at or near floor level under cabinets, window sills, stair risers - anywhere where space is at a premium - provides warmth and comfort to formerly troublesome areas. Toe space heaters make a great addition to a floor heating system. The toe space uses a squirrel cage blower arrangement to move air smoothly across the hot water coil. A two speed rocker switch provides air output adjustment so that during very cold times you can boost the fan to high output then during the mild day drop it back to low.

MODEL NUMBER*	VOLTS	CAN SIZE H x W x D	GRILLE SIZE H x W x D
HT412 2/3-FS-GW	120	3 3/8" x 18 1/4" x 13 1/2"	3 3/8" x 20" x 3/4"
HT612 4/5-FS-GW	120	3 3/8" x 18 1/4" x 13 1/2"	3 3/8" x 20" x 3/4"
HT812 5/6-FS-GW	120	3 3/8" x 18 1/4" x 13 1/2"	3 3/8" x 20" x 3/4"
